

Utilization of tracking devices on Lufthansa Cargo flights.

Guideline

Use of tracking devices on Lufthansa Cargo Flights

Lufthansa Cargo allows customers the use of their own tracking devices on most Lufthansa* flights (please consider the affected actual types mentioned in this document). You have now the ability to add tracking devices to your shipments and receive additional information at frequent intervals. This information will be in addition to current CiQ- (old C2K-) milestones.

Which tracking devices can be used?

Active tracking devices send live shipment data such as actual location (via GPS and GSM), temperature, humidity, shock or changes in luminosity. Data transmission is disabled in all devices during flight to conform to air safety regulations. The following tracking devices** are currently allowed for use on Lufthansa flights:

- 7PSolutions GD100, GL200, GL 300, GL 300W
- Bosch Basic Sense Type T and S
- Controlant CO 10.01 Real-Time Logger
- ECD Solid II
- ECS, Logistic Monitoring Gateway (Model: GWS-CSCG)
- GEO Single Use loSC Edge (V2)
- Hanhaa Parcelive
- Honeywell (RTHAL-C1), (3G- ST-THALP-C1)
 - "connected freight"
 - "hive" ComBox + BEEcons
- Imec tempmate S1
- Intelyt, iCHIME
- Intelyt, iTAG
- Kirschen Global Security A-Type „Schenker Smartbox“
- Moog Crossbow ILC2000***
- MSR 145, MSR 165, MSR 175
- OnAsset Sentry 400, 500 Flightsafe
- Roambee, Sensor Bee
- Sendum PT300D
- SenseAware 2000
- Tive TT-3000
- Bosch, TDL 110
- Cartasense U-Sensor
- DHL SmartSensor RFID
- ITAG@3 Pro
- Onset Computer Corporation, InTemp CX 500

* The devices are not approved on Austrian Airlines, Aerologic and Brussels Airlines.

** Concessions to use these devices are based upon current provisions and can be revoked at any time.

Activated flight mode is mandatory and failsafe timer values has to be set to 20h.

*** Identically constructed Fedex Senseaware SA 2000 is allowed to use as well.

How to use tracking devices?

The devices mentioned above are accepted onboard all Lufthansa and Lufthansa Cargo flights only and are not approved for transportation on interline routings with other carriers. Lufthansa Cargo will not be responsible for damages or losses of any GPS devices in transit. Following step must be observed when accepting a shipment containing an active tracker: Please strictly consider the IATA Guidelines „Battery powered Tracker: [IATA Guidelines Battery powered Tracker](#)

The tick box “Realtime Tracking” has to be activated during booking. (pls. see illustration below). → All devices must be securely enclosed within the shipment.

Contacts

Should you have any questions regarding the requirements on how to book a GPS tracking device with your Lufthansa Cargo shipment, please contact your [local sales representative](#). For technical questions about the devices, please contact directly the appropriate manufacturer. If you are interested in approvals for tracking devices others than mentioned above please contact your local sales colleagues

Changes in Booking (eBooking Screen Shots)

To activate the tick box “Realtime Tracking” that a customer owned tracker is on board is important to follow the process.

In case a shipment must be scanned and the existence of the active sending tracker is causing an alert (and the tracker was not prior announced), the security process is started which might result in a delay of the shipment and in additional costs (which might be borne by the customer).

The screenshot displays the Lufthansa Cargo eBooking interface. The top navigation bar includes links for Home, German, Local Info, Press & Media, Company, and Contact. The main header features the Lufthansa Cargo logo and a navigation menu with options like eServices, Network, Products & Industries, Fleet & ULDs, Quality, and proMotion. A user profile for Mira Meyerhof is visible in the top right.

The main content area is titled "Basic Booking Information (BBI)" and contains several sections for entering shipment details:

- Airwaybill Number:** Includes a dropdown menu (020) and buttons for View Order, Update Order, and Delete Order(3).
- Origin* and Destination*:** Fields for Frankfurt (FRA) and a dropdown for "Use entered station code".
- Delivery to Lufthansa Cargo:** Fields for date and time at origin (Local time).
- Pickup at Destination:** Fields for date and time at origin (Local time).
- Booking Template, Capacity Agreement, and Quotation:** Links to various booking-related actions.
- Nature of goods* and Product and td, Service*:** Fields for selecting commodity groups and services.
- Replacement for Nature of goods:** Field for alternate descriptions.
- Contract Number (5) and Charge Code (2):** Fields for contract and charge codes, with a Pre-Paid dropdown.
- Shipping Options:** A list of checkboxes including Unsecured Shipment/Unsecured Shipper, CCSF Secured, Shipper loaded ULD, Consolidated Shipment, Contains Device (container and/or parcels), and **Realtime tracking** (checked and circled in red).

At the bottom right, there is a "Continue Booking >>" button.
